RED STRING LEGENDS

TENNESSEE 1892

Back to the roots of the brand ROCK CHEF® – back to the origins of Rock! Pristine and pure, original and handmade - back to the cradle of Rock music, back to Tennessee!

With the beginning of the KARLOWSKY® success story in 1892 everything is completed: Here are legends converging, lifting up the brand ROCK CHEF® onto a new level with a genuine and authentic attitude powered by the two visionaries Stefan Marquard and Thomas Karlowsky.

You need to bethink on your ancestry and past to shape the future. Ensigns for this are the Red String Legends that are keeping together the overall concept of the collection like a "red string".

MEASURING

The assistance of a helping person is recommended. We recommend to wear tight-fitting clothing or underwear. Measure directly on the body. The necessary additions for the comfort or functionality are taken automatically by us during the creation of the textiles.

Please consider the following helpful measuring recommendations:

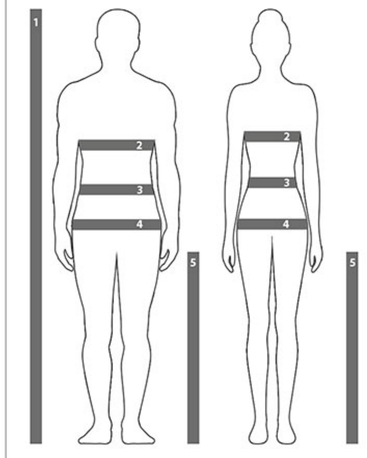

1 body height: It is measured barefoot from the highest point of the head to the floor.

2 chest width: It is measured at the widest part of the chest horizontally around the body.

3 waist width: It is measured at the thinnest point horizontally around the waist.

4 hip width: It is measured at the widest part of the buttocks horizontally around the hip.

5 inside leg: It is measured from the crotch along the inside of the leg straight down to the floor.

1 - body height
2 - chest width
3 - waist width
4 - hip width
5 - inside leg

WASHING SYMBOL LEGEND

WASHING		95	95	60	60	40	40	40	30	30	30		
		normal	*mild*	*normal*	*mild*	*normal*	*mild*	*very mild*	*normal*	*mild*	*very mild*	*hand wash*	*do not wash*
		The numbers in the washpot specify the maximum temperature in °C which must not be exceeded. The bar underneath the wash tub characterizes a mild process with reduced mechanical action especially for easy care articles. The double bar indicates a very mild process especially for woollen articles.											
BLEACHING		*any oxidizing bleaching agent allowed*			*only oxygen/non-chlorine bleach allowed*				*do not bleach*				
DRYING		*tumble drying possible, normal temperature*			*tumble drying possible, lower temperature*				*do not tumble dry*				
		The number of dots indicates the severity according to the severity of the tumble drying process.											
IRONING		*Iron at max. Temperature of 200°C*			*Iron at max. Temperature of 150°C*			*Iron at max. Temperature of 110°C*			*do not iron*		
		The number of dots indicates the severity according to the temperature of the hand iron.											
PROFESSIONAL TEXTILE CARE		P	P	F	F								
											do not dry clean		
		The letters within the circle specify the solvents that can be used. The bar under the circle indicates a mild professional dry cleaning process. The double bar indicates a very mild process. These may concern mechanical action and/or drying temperature and/or water addition in the solvent.											
		W	W	W							*do not wet clean*		
		The letters within the circle specify the wet cleaning process. The bar under the circle indicates a mild professional dry cleaning process. The double bar indicates a very mild process. These may concern mechanical action and/or drying temperature and/or water addition in the solvent.

INFORMATION
SYMBOL LEGEND

Textiles

Labelled products consist of material which contains the strech fibre Elastolefin. This fibre is very durable and provides perfect wearing comfort.

Features products that are manufactured in Europe.

Products have been controlled and certified according to OEKO-TEX® Standard 100. All labelled items have been tested for illegal, regulated or harmful substances to health and conform to the valid human ecological requirements of the Standard.

The Beau-Fixe®-treatment is a high-quality textile finishing method that improves fabric properties so the textile becomes crease-resistant and easy-iron. The improved properties reduce the effort of ironing and prevent occurring wrinkles while wearing. Treated fabrics are more resistant to machine wash, they dry faster and show a softer touch with elegant appearance.

PIMA cotton is a special high-class type of cotton which is very soft, shiny and durable caused by its extreme fine and long fibers.

COOLMAX®-textiles transport humidity very fast to the outside layers of the garment thus supporting a natural temperature regulation of the body.

Features products that can be washed at a temperature up to 95 degrees.

Features products made from highly refined fabrics with low care requirements.

Features products that are suitable for leasing.

Features products that fulfill the needs of the industrial laundry and can be cleaned accordingly.
