BRAND STATEMENT

Both in textile promotion and in corporate fashion wear **JAMES & NICHOLSON** and **myrtle beach** are meanwhile among the best-known and most popular brands. The product diversity of the two product lines is unparalleled and is expanded every year by around 100 fashionable novelties. In the fields of sports, leisure, business and work there is hardly any top or headgear which is not included in the diverse product line.

JAMES & NICHOLSON stands for functional sportswear for almost every sport, for trendy leisurewear and jackets as well as for classic business wear and sturdy workwear. For all everyday situations **JAMES & NICHOLSON** offers suitable clothing for ladies and men. Most basics are available in almost 40 colours as well as in outsizes up to 6XL.

Fashionable and functional headwear as well as trendy accessories, which can be combined very well with the **JAMES & NICHOLSON** collection, that is what **myrtle beach** stands for. The wide range of cap shapes and cap designs is unique and at the same time innovative, for a few of the products of myrtle beach are prize-winning. In recent years the Promotional Gift Award has been won several times by clever cap inventions which have definitely enriched the promotional market. The headwear brand is extended by trendy scarfs, gloves and the large spa collection, which offers terry products for sports and the catering trade in more than 20 colours.

The storage capacity of the brands is 20 million pieces, 98% of which are always available. Extremely short delivery times and a smooth handling of direct shipment are a great advantage **JAMES & NICHOLSON** and **myrtle beach** offer their customers. Service takes top priority – in day-to-day business the focus is always on the customer. That is why the quality of the product lines is the most important thing of the company philosophy – from inception to completion and beyond. **JAMES & NICHOLSON** and **myrtle beach** are manufactured with social and ecological responsibility. All the textiles are REACH-compliant and manufactured according to Oeko-Tex® Standard 100. Since 1999 social and environmental aspects have been integrated into the company code of conduct. They are submitted to strict controls.

This year too, the new collection radiates a zest for life: always up to the minute in business and therefore trend-, quality- and price-conscious! With **JAMES & NICHOLSON** and **myrtle beach** several price levels from low budget to premium will guarantee excellent value for money for the customer.

RESPONSIBILITY

SOCIAL COMPLIANCE

As members of the, BSCI/Business Social Compliance Initiative' we commit ourselves to implementing the BSCI code of conduct as part of our business relations with our manufacturers and thus to improving the working conditions within our supply chain and to producing our textiles fairly. This includes our clear commitment to the empoyees' right to freedom of assembly, protection against discrimination, and an adequate remuneration, that is, at least the statutory national minimum wage.

Another central component is the occupational safety regulations. That is how we guarantee that the occupational safety regulations of the ILO (International Labour Organisation) are met. Child labour, forced labour or precarious jobs are not tolerated. Several social compliance departments in the countries of production test all the factories thoroughly and make sure that these conditions are met.

amfori BSCI
Trade with purpose

PROTECTION OF THE ENVIRONMENT

All the products of **myrtle beach** and **JAMES & NICHOLSON** are produced in an environmentally friendly way.

QUALITY STANDARD

The merchandise is regularly tested by certified testing institutes in the countries of production regarding the given parameter. Moreover, in cooperation with SGS, Testex, Hohenstein and other renowned institutes the quality is continually controlled.

OEKO-TEX® STANDARD 100

This standard guarantees that textile and non-textile product components pose no threat to health.

OEKO-TEX®

ADHERENCE TO THE REACH - REGULATIONS

We assure you that when manufacturing our **myrtle beach** products and **JAMES & NICHOLSON** textiles we meet the obligations of the REACH-regulations.

OCS STANDARD

When manufacturing garments of **myrtle beach** and **JAMES & NICHOLSON,** the Organic Content Standard is a standard for verifying and tracking the exact content of organically grown materials in a final product. Among other things, the superordinate 'Content Claim Standard' defines with OCS the traceability of merchandise as well as the transparency within the production chain.

ORGANIC 100 content standard

Made with 100% Organically Grown Cotton Certified by CU853836

ORGANIC BLENDED content standard

Made with 50%–95% Organically Grown Cotton Certified by CU853836

SUSTAINABILITY

ORGANIC COTTON

ORGANIC COTTON COLLECTION - CLOTHES WITH INNER VALUES

Fair, transparent, harmless: The Organic Cotton collection includes a wide range of **sustainably produced** organic cotton clothing for every **fair fashion lover.** The Organic Cotton collection by JAMES & NICHOLSON and myrtle beach impresses with a **high quality** combined with **modern cuts** and **tasteful details.**

The **naturalness** is not only visible but also perceptible. Knowing that the components of the garment are made of **sustainably grown cotton** and that **no genetically modified fibres** are used conveys a completely **new attitude towards life.**

OCS STANDARD

When manufacturing garments of **myrtle beach** and **JAMES & NICHOLSON,** the Organic Content Standard is a standard for verifying and tracking the exact content of organically grown materials in a final product. Among other things, the superordinate 'Content Claim Standard' defines with OCS the traceability of merchandise as well as the transparency within the production chain.

Made with 50%–95% Organically Grown Cotton Certified by CU853836

RECYCLED POLYESTER

PET BOTTLES ARE RECYCLED TO CREATE A NEW FASHION.

Plastic bottles collected in the sea are crushed, melted down and spun to yarn again, which is sometimes completely integrated into the production. Thus for producing the workwear cap MB6234 about 3 half-litre bottles are recycled and for the new sport T-shirt JN519 even 25.

for example: plastic bottles

RECYCLED POLYESTER

FUNCTIONS

CAPS FOR PRINTING

Caps with this label are ideal for printing and embroidering. The construction of the caps leaves a lot of space so the cap is easy to decorate, with the logo presented to perfection.

BREATHABILITY / PERMEABILITY TO VAPOUR

Functional textiles must have the ability to transport moisture from the skin to the fabric surface as fast as possible. Permeability shows how much steam in grams can evaporate on a surface of 1 m² within 24 hours. The higher this figure, the more breathable the textile is.

WATER COLUMN

The ability to withstand water pressure without moisture penetrating into the material is given by the water column (mm). The minimum standard is a water column of 1,500 mm.

RECYCLED POLYESTER

PET bottles are recycled to create a new fashion.
Plastic bottles collected in the sea are crushed, melted down and spun to yarn again, which is sometimes completely integrated into the production. Thus for producing the workwear cap MB6234 about 3 half-litre bottles are recycled and for the new sport T-shirt JN519 even 25.

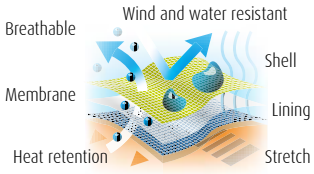

TAPED SEAMS

To avoid moisture penetrating into the fabric, seams and stitches can get taped. Taped seams are 100 % water-proof.

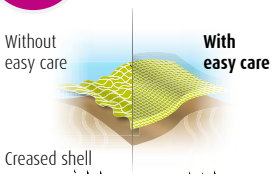

BIONIC-FINISH®ECO

BIONIC-FINISH® was developed, following the example set by nature, 'learning from nature'. The textile is protected against water and dirt by a very thin crystalline structure. BIONIC-FINISH®ECO protects man and nature.

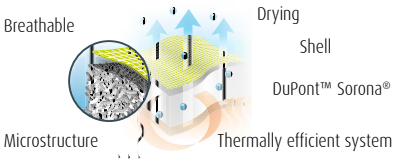

SOFTSHELL

Softshell with TPU membrane consists of three layers. Due to the microporous TPU membrane as middle layer the material is water-proof, wind-proof and breathable at the same time.

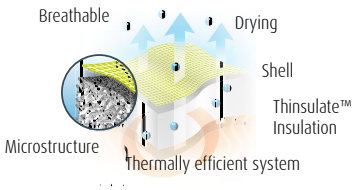

EASY CARE

This special finish makes shirts and blouses especially easy to iron. To preserve this function the textiles should not be overdried in the tumbler and you should avoid using an overheated iron.

DUPONT™ SORONA®

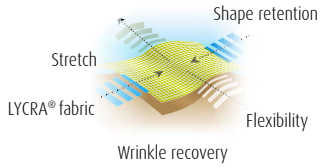

Sorona® renewably sourced fibre delivers superior performance benefits to today's fashion. Fabrics that use Sorona® are very soft, very strong and dry quickly. Sorona® helps fabrics stretch comfortably and retain their shape. And, it is made with plant-based ingredients. DuPont™ Sorona®. Designed for Performance. Derived from Nature.

THINSULATE™ INSULATION

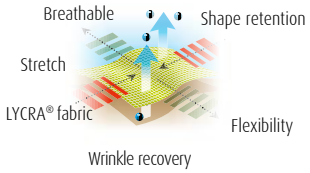

The light-weight thermal insulation affords optimum protection against cold despite its minimum thickness. It even keeps you warm in damp or wet conditions. Thinsulate™ INSULATION offers excellent comfort and allows optimum room to move. It is extremely breathable, durable and easy-care.

+ FEATURES

LYCRA®

Lycra® allows the fabric both to stretch significantly and to retain its shape. Fabrics and garments containing Lycra offer exceptional fit, comfort, freedom of movement and wrinkle recovery.

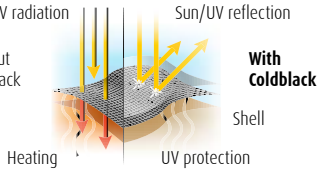

LYCRA® SPORT

Lycra® Sport fabrics are specifically engineered for sporting activities which require a combination of light weight, breathability, muscle support and freedom of movement.

CORDURA®

CORDURA® is a very sturdy, textured polyamide fabric, which is extremely tear- and abrasion-proof. Special yarns, specially developed weaving techniques, dyeing methods and additional textile finishing ensure that products with CORDURA® can be used as durable and comfortable workwear.

COLDBLACK®

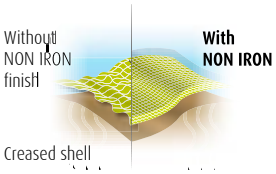

Textiles with a coldblack®-finish afford optimum protection against heating up through sun rays. They stay cooler. The effect of this is that the person wearing these garments does not sweat so easily, feels better and is even more efficient. coldblack® is a registered trademark of Schoeller Technologies AG, Switzerland (patent pending).

TOPCOOL®

TOPCOOL® polyester fibres perfectly absorb moisture due to their special surface and evacuate it quickly to the outside where it can evaporate. The skin stays comfortably dry and a constant temperature level of the body is maintained.

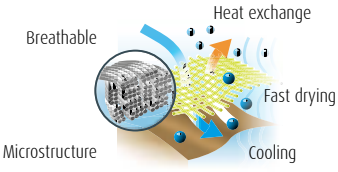

COOLMAX®

Through the channels of the breathable COOLMAX®-fibre humidity is evacuated extremely fast to the outer layers of the fabric . Thus the body is kept dry. At the same time a natural temperature control of the body is supported.

NON IRON

This special finish makes shirts and blouses iron-free: All you have to do is wash them, dry them and put them on. To preserve this function, these textiles should not be overdried in the tumbler and you should avoid using an overheated iron. If necessary, seams can be ironed at a low temperature.

COOLDRY®

Due to the CoolDry® finish moisture is transported to the outside and creates a comfortable feeling. The textiles dry quickly, are breathable and ideal for all activities.

THERMO-SUBLIMATION

THERMO-SUBLIMATION FOR GREAT PRINTS!

Sublimation prints are an amazing way to create bright, long lasting colours with photorealistic qualities. Sublimation ink, when heated, turns into a gas that penetrates and permanently dyes polyester fabric, creating a clean, professional look with a soft touch.

Start-up costs are minimal as processing is performed by an ink jet printer using heat transfer paper. The resulting print is in mirror image and is transferred onto the garment by using a heat press at a specified temperature and pressure. This is a low cost operation suitable for one-offs or production series.

THERMO-SUBLIMATION

THERMO SUBLIMATION FOR GREAT PRINTS!

Sublimation prints are an amazing way to create bright, long lasting colours with photo realistic qualities. Sublimation ink, when heated, turns into a gas that penetrates and permanently dyes polyester fabric, creating a clean, professional look with a soft touch.

Start-up costs are minimal as processing is performed by an ink jet printer using heat transfer paper. The resulting print is in mirror image and is transferred onto the garment by using a heat press at a specified temperature and pressure. This is a low cost operation suitable for one-offs or production series.

product

RECYCLED POLYESTER

PET BOTTLES ARE RECYCLED TO CREATE A NEW FASHION

Plastic bottles collected in the sea are crushed, melted down and spun to yarn again, which is sometimes completely integrated into the production. Thus for producing the workwear cap MB6234 about 3 half-litre bottles are recycled and for the new sport T-shirt JN519 even 25.

WASHING (TUB)

The numbers in the tub indicate the maximum washing temperatures which must not be exceeded. The bar below the tub requires a more (mechanical) gentle treatment (e.g. programme for delicate fabrics). It designates washing programmes which are suitable for easy-care and delicate garments. Textiles made of cotton or mixed fibres should be pulled into shape when still wet. We recommend that textiles with prints or embroideries should only be washed on the reverse at a maximum of 40 degrees in order not to impair the quality of the print or embroidery.

Normal washing | Delicate washing | Normal washing | Delicate washing | Normal washing

Delicate washing | Specially delicate washing | Delicate washing | Hand washing

DRY CLEANING (CLEANING DRUM)

The letters are intended for the textile cleaner. They indicate the possible solvents. The bar below the circle requires cleaning under limited mechanical strain, with a limited amount of moisture and at a medium temperature. **Textiles with prints or embroideries should not be dry cleaned.**

Normal clothes | Delicate clothes | Delicate clothes | Delicate clothes | Wet cleaning

Delicate wet cleaning | Special wet cleaning | No dry cleaning possible

IRONING (IRON)

The dots indicate the temperature scale of the irons. Textiles with prints or embroideries should only be ironed on the reverse.

Iron at high temperature (max. 200 degrees) | Iron at medium temperature (max. 150 degrees) | Iron at low temperature (max. 110 degrees) | Do not iron

TUMBLE DRYING (TUMBLE-DRIER)

The dots indicate the drying-grades of the tumble-drier. Textiles with transfer prints must not be tumble-dried.

Tumble dry at normal temperature | Tumble dry at low temperature | Do not tumble dry

BLEACHCING (TRIANGLE)
